C

I BELLISSIMO! sono brillanti, intensi e facili da usare a tutti i livelli. Idonei per workshop, studios, ceramic cafe, atelier e scuole. Adatti per tutti i tipi di decorazione: pennello, drops, spugna, hand printing. Si rivelano un ottimo veicolo anche per chi muove i primi passi nella decorazione ceramica. Utilizzabili anche su stoneware e porcellana.

BLS 0912 e BLS 0913: sono sufficienti soltanto due mani!

BELLISSIMO! are bright, vibrant, and easy to use for all levels of ceramists. Perfect for workshops, studios, ceramic cafes, and education. Suitable for all kinds of applications: brush, stick, drops, and finger printing. Excellent for those taking their first steps in ceramic decorating. Also suitable both on stoneware and porcelain.

BLS 0912 E BLS 0913: just two coats!

Engobbi

ENGOBES

FOOD SAFE

READY TO USE

NOT TOXIC

LEAD FREE

Gli engobbi sono proposti in 56 colori diversi. La loro principale caratteristica è l'altissima concentrazione di pigmento che gli conferisce un'ottima copertura sulle ampie superfici e grande facilità di uso. Tutti gli engobbi possono essere usati indifferentemente sia su argilla cruda (greenware) che su biscotto. Perfetti per graffito. Qualora si desideri una finitura lucida, Matte o craquelè applicare una delle cristalline Colorobbia Art sul biscotto engobbiato. Nella stessa serie è presente la Filigrana HCO - 610, pasta bianca a rilievo, per contornare o rifinire, perfetta per l'uso a peretta. Acquista il barattolo di filigrana (1 litro) e usa una qualsiasi bottiglia di Detail che hai o usa la bottiglia del "Kit applicatore Colorobbia" (MHC 1822), che include punte di diverse dimensioni.

Engobes are offered in 56 different colours. Their main feature is the very high concentration of pigment that gives it excellent coverage on large surfaces and great ease of use. All engobes can be used both on greenware and bisque. Perfect for graffiti. Use filigrana for a fun raised effect on your pottery. Shake jar well and refill in Detail bottle shake the jar. Gently squeeze bottle to create design on your piece. Filigrana (HCO - 610) comes in white only, but a little bit of Bellissimo can be added to change colour for fun effects. Purchase jars of filigrana (1 pint) and use any Detail bottle you have or use Colorobbia Detail bottle (MHC 1822), which includes several size tips.

CRISTALLINA SUPER CLEAR

Uno smalto trasparente non tossico e senza piombo, che è facile da usare e dà una magnifica brillantezza. Uno smalto di qualità per le tue ceramiche! una rivoluzione nell'ambito degli smalti trasparenti senza piombo! Lo smalto trasparente Colorobbia HC-0004 è facile da usare appena apri la confezione! liscio e cremoso, basta una veloce mescolata ed è pronto per l'immersione delle tue creazioni. se è la prima volta che lo usi è consigliato fare delle prove ed aggiungere acqua se necessario. Immergere una volta, ruotando e scuotendo vigorosamente il pezzo quando lo si toglie per minimizzare colature e gocce. usa un pennello per rimuovere le imperfezioni. lasciate che lo smalto sia completamente asciutto prima di cuocerlo. il metodo di cottura raccomandato è tramite coni pirometrici 05 e 06 per 15 minuti.

SUPER CLEAR GLAZE

A lead free, non-toxic clear dipping glaze, that's easy to use and provides beautiful shine. A quality glaze for your pottery! A revolution in lead-free clear glazes! Colorobbia HC-0004 clear glaze is easy to use when you first open the bucket! Smooth and creamy, just a quick stir in the bucket and you're ready to dip your works. If it is your first time using it, it is recommended to make trial plates and add water if needed. Submerge once and when removing the piece rotate and shake it vigorously to minimize drips and runs. Use a brush to remove imperfections. Allow the glaze to dry completely before firing. The recommended firing method is shelf cone 05 and 06 with a 15 minute hold.

Fairy Dust

FAIRY DUST

FOOD SAFE

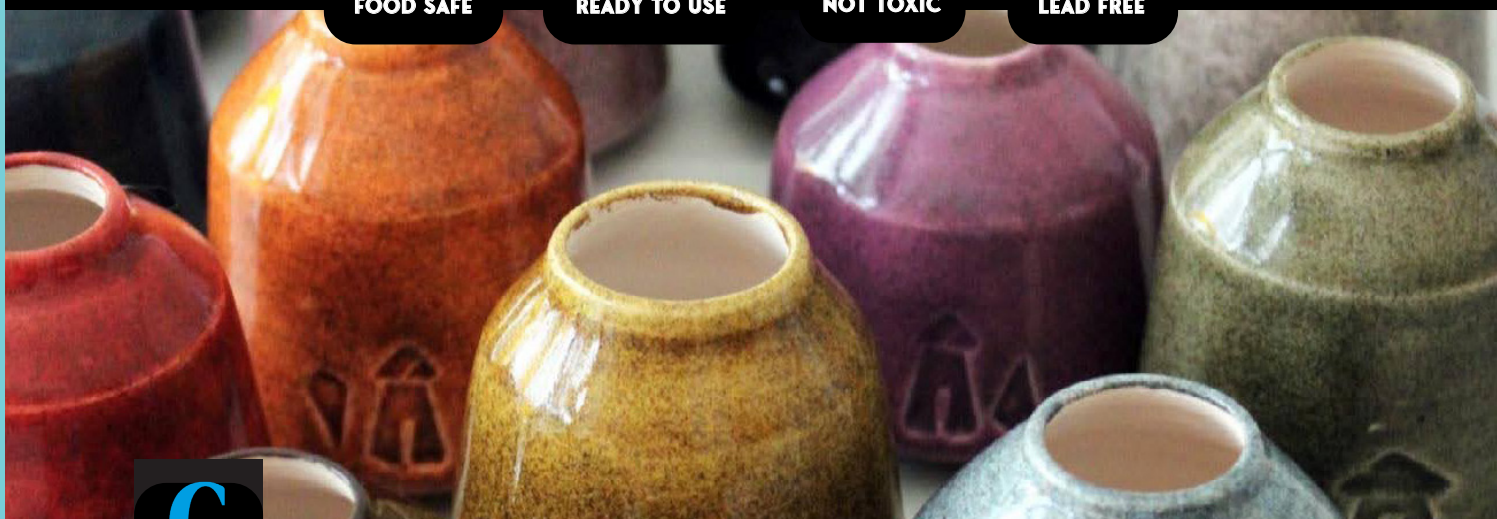

READY TO USE

NOT TOXIC

LEAD FREE

La serie Fairy Dust aggiunge un effetto scintillante ad ogni progetto ceramico. Usare 1-2 mani su ogni pezzo per ottenere un miglior risultato. Utilizzando una copertura totale del pezzo, i Fairy Dust non necessitano dell'applicazione di cristallina. Possono essere utilizzati in combinazione con altre serie come BLS o Engobbi. La "Dust" all'interno del prodotto è molto contaminante così suggeriamo di utilizzare pennelli dedicati.

Colorobbia Fairy Dust adds a sparkly effect to any project. Use 1-2 coats on any piece for an intensely sparkly look. Dipping in clear glaze NOT needed. Can be used in combination with BLS or Engobes and overglazes. The "DUST", inside this glaze formula is very contaminating so we do suggest to use dedicated brushes.

LEAD FREE

C

Gli smalti Terra Bella sono un misto unico di colori ispirati dalla natura. Ognuno di questi colori risulta avere una texture con sensazione unica. Le superfici variano in base agli smalti, per una finitura dalla lucentezza elevata a opaca, con piccole variazioni da colore a colore per un look davvero unico ed in armonia con gli altri smalti Colorobbia. Per esempio, Blues, Jadeite e Mystique White sono lucidi e splendenti, mentre San Fran Frog, Cedar Wood e Siena sono opachi e risultano avere un effetto multi tono. Egyptian Blue reagisce in modo ottimo con il Mystique White, creando rotture nello smalto che crea un motivo splendido. I 6 colori aventurina, oltre il Mystic White, sono formulati per l'applicazione sopra o sotto tutti gli smalti Terra Bella creando molteplici effetti, non ci saranno mai due pezzi uguali!

Terra Bella ceramic glazes are unique mixture of colours inspired by nature. Each of these colours results into unique texture and feel. Surfaces vary from high gloss to matte/satin finish, with subtle variations in each colour for a truly unique look and are in perfect harmony with other Colorobbia glazes as well in conjunction with each other. For example, Blues, Jadeite and Mystique White are glossy and shiny while San Fran frog, Cedar Wood or Siena are matte and result in a multi-tone effect. Egyptian blue reacts beautifully with the Mystique White creating cracks in the glaze resulting in gorgeous patterns. The 6 aventurina colours, beside the Mystic White, are formulated for application over or under the entire Terra Bella glazes creating multiple effects, no two pieces will ever be the same!

Smalti, cristalline e smalti speciali

GLAZES, TRANSPARENT GLAZES & SPECIAL GLAZES

FOOD SAFE

READY TO USE

NOT TOXIC

LEAD FREE

I prodotti di questa serie, suddivisi per temperature di utilizzo da 950° a 1250°, rappresentano parte delle molteplici colorazioni di smalti e cristalline elaborate durante i cento anni di attività di colorificio Colorobbia, in forma **ready to use**. Tali prodotti sono indicati per un utilizzatore esperto. Gli smalti passano dalle classiche finiture coprenti, lucide, satinata a finiture speciali. Insieme a smalti reagenti il risultato può differire a seconda delle fasi di preparazione, applicazione e cottura. Tutti gli smalti ad esclusione dei reagenti possono essere miscelati fra loro o con smalti bianchi per ottenere tonalità intermedie. Le cristalline sono trasparenti neutre o colorate, con finitura lucida, satinata o craquelè, utilizzabili preferibilmente su biscotto bianco. Perfette per accentuare l'effetto basso rilievo e le incisioni presenti sul biscotto. Miscelabili fra loro per tonalità intermedie.

The products from this serie are divided by usage temperature from 950° to 1250°. They represent one part of the numerous glazes and crystalline colors developed during Colorobbia dye factory's hundred years activity, in a ready to use formula. These products are advised for an expert usage. The glazes vary from classic coverage, glossy, satin finishes to special finishes. Together with reactive glazes, the results can vary based on the preparation, application and firing phases. Every glaze, except from the reactive ones, can be mixed together or with white glazes to obtain medium tones. Transparent glazes are neutral or colored transparent with a glossy, satin or craquelè finish, and preferably used on white bisqué, perfect to highlight the bas-relief and carvings. They can be mixed for medium tones.

Oro & Lustri Metallici

GOLD & OTHER PRECIOUS METALS

FOOD SAFE

READY TO USE

NOT TOXIC

LEAD FREE

C

L'oro ed i lustri sono liquidi, con l'aspetto di lacca e colore marrone scuro; contengono come componente essenziale metalli in forma disciolta. In caso di necessità di favorire la stesura del prodotto, si può utilizzare il diluente HTL - 199 fino ad un massimo del 3%. Si applicano principalmente a pennello su oggetti di porcellana e ceramica. Applicazione ad aerografo solo per uso professionale. L'applicazione si effettua sempre su oggetti smaltati e già cotti, ben puliti e senza tracce di umidità.

Liquid gold and metallic lustres have a colloidal form and have a dark brown colour; they contain dissolved metals as the main component. If necessary, to ease the application of the product, the thinner HTL - 199 can be used up to a maximum of 3%. They are mainly applied by brush on earthenware and porcelain. Airbrush application is for professional use only. This application should always be on glazed objects, thoroughly clean and moisture free.
